Tip: Bundle your **342 Skimmer Lid** with the **206 Access Cover** for a consistent finish. The 206 size will cover ground water inspection pipes in style. This package is priced to inspire.

HIDE SKIMMER LID KIT INCLUDES

SAFETY KEY

A 316L marine grade stainless steel tool, used to safely open and close the HIDE Lid.

HEIGHT ADJUSTER

Used only when additional height is required. Provides up to 8mm of extra packing height (combined with the adhesive) if your inlay material is not thick enough to achieve a flush finish with the top of the Inlay Lid. (i.e. a 12mm stone will fit the 20mm HIDE Kit with 8mm packing).

INLAY LID

A high grade polymer composite tray which holds the inlay (landscape) materials you've chosen, for example, stone or porcelain tile and decking.

EDGE PROTECTOR

A high grade polymer composite frame inserted into a recess within the landscaped area. It protects the coping/surrounds from chipping/breakage when the Inlay Lid is opened/closed.

ADHESIVE AND DOCUMENTATION

A one-part adhesive specially developed for a long-term fitting of natural stone and porcelain tiles into the HIDE Inlay Series. Documents consist of comprehensive contractor installation instructions, homeowners warranty and manual.
